

# Connected business Broadband Fibre

Broadband Fibre is an excellent value-based Internet access service that provides uncapped and unshaped connectivity with speeds of up to 1 000Mbps.

Delivered over Liquid Intelligent Technologies superior, robust fibre infrastructure, Broadband offers low-latency, symmetrical bandwidth along our next-generation network backbone. Liquid delivers its broadband as an end to end solution and there for minimizing the amount of providers you require to deal with.

## **Fibre is symmetrical**

This means that your upload and download speeds are equally fast! Most available broadband services are asymmetrical, which results in slower upload speeds. With our fibre solution, you can rest assured that important urgent documents will be delivered with great efficiency.

## **Superior fibre network**

Our fibre network delivers superior speeds and low latencies, that remain unaffected by copper theft, which all too frequently leaves businesses stranded without connectivity or the ability to trade, which severely impacts your productivity and ultimately your bottom line.

## **Single point of contact**

We offer end-to-end customer support services, so you only deal with a single contact centre and service provider.

## **'Best-Effort' service**

In lieu of an SLA, Liquid does not guarantee peak speeds on our Broadband service but ensures that our 'Best-effort' service have high availability and the stability fibre has to offer.

## **Router**

Liquid will provide all new broadband fibre customers with router access the Liquid network. However over time bandwidth demand increase and the same router might become incapable of managing increased bandwidth with upgrades. Liquid will however provide a new router on extension of agreement or alternatively a levy fee of R750 to replace the existing router.

## **Product portfolio and pricelist**

The Broadband Fibre portfolio includes following services:

Service	Line speed up to	Monthly recurring cost	Once off installation cost
Broadband Fibre	10Mbps	R1,300.00	R1,500.00
Broadband Fibre	20Mbps	R1,600.00	
Broadband Fibre	30Mbps	R1,900.00	
Broadband Fibre	50Mbps	R2,300.00	
Broadband Fibre	100Mbps	R2,800.00	
Broadband Fibre	200Mbps	R5,000.00	
Broadband Fibre	500Mbps	R9,000.00	
Broadband Fibre	1000Mbps	R13,000.00	

\* Subject to a minimum contract of 24 months depending feasibility.
